# National Referral Mechanism Statistics – End of Year Summary 2015

This report presents a summary of the number of potential victims of trafficking referred in to the National Referral Mechanism (NRM) in 2015.

The figures used are from the NRM data with a cut off date of 04/01/2016. Some of the cases have yet to be concluded by the Competent Authorities and decisions on their trafficking status made. The NRM is a 'living' process and data should be considered provisional until all cases are concluded. Some values may differ in future reports, or from previous reports as additional information comes to light through the duration of the cases and the records are amended accordingly.

**This report does not provide any analysis of the picture of human trafficking in the UK. It provides figures relating to the number of potential victims that have been referred in to the NRM process during 2015.**

## Decision Data

This report contains limited decision data for 2015, as a considerable proportion of cases (over 50%) are pending final outcome.

A summary of 2014 and 2013 cases is provided below to give an indication of the proportion of cases that may receive a positive or negative outcome.

## Annex F – Location Presented

### Number of Potential Victims Referred by Location of Presentation

The following table and map shows the location of presentation for potential victims encountered and referred to the NRM process. Police force area is used for identifiable boundary purposes. The data represents referrals from all agencies, not just police forces. The location of presentation is where the potential victim was first encountered or identified as a PV<sup>6</sup>.
