# National Referral Mechanism Statistics - End of Year Summary 2016

This report presents a summary of the number of potential victims of modern slavery referred in to the National Referral Mechanism (NRM) in 2016.

The figures used are from NRM data with a cut-off date of **06/01/2017**. Some of the cases remain open with the Competent Authorities and decisions on their trafficking status are yet to be made. The NRM is a 'living' process and data should be considered provisional until all cases are concluded. Some values may differ from previous or future reports as supplementary information is revealed throughout the duration of a case and their records are adjusted accordingly.

**This report does not provide any analysis of the picture of modern slavery in the UK. It provides figures relating to the number of potential victims that have been referred in to the NRM process during 2016.**

## Decision data

This report contains limited decision data for 2016, as a considerable proportion of cases (over 55%) are pending a final outcome.

A summary of the current status<sup>1</sup> for cases between 2013 to 2016 is provided to give an indication of the proportion of cases that may receive a positive or negative outcome.
